## PROFESSIONAL OVERVIEW

BCA graduate with a strong interest in MERN stack development. Experienced in building dynamic web solutions using HTML, CSS, React.js, and MongoDB. Eager to apply my skills and education to contribute to innovative tech projects.

## EDUCATION

**BCA (Bachelor of Computer Application) | Kannur University / ITM College of Arts and Science** 2021 – 2024  
Kerala, India

**Higher Secondary Education (Computer Science) | Kerala State Board |** 2021 – 2024  
Kerala, India

## WORK EXPERIENCE

**Luminar Technolab | MEARN Stack Developer Intern** 07/2024 – 03/2025  
Kochi, India

- **Frontend Skills:** Built responsive, stylish websites using HTML, CSS, and React.js.
- **Backend Development:** Created feature-rich websites with MongoDB, Express, and Node.js.
- **State Management:** Gained hands-on experience with React and Redux.
- **Projects:** Developed an e-commerce site, a media showcase platform with categorization, and a project-sharing website.

## PROJECTS

### SMARTTECHIZ | TECHIZ At Your Finger Tip

- **Platform Development:** Helped build *Smarttechiz.com* using Python and Django for job listings targeting skilled workers.
- **User Verification:** Developed a registration and verification system for workers; enabled customers to search, book, and review services.
- **Alerts & Feedback:** Integrated a feedback-based warning system and set up email/SMS notifications for service requests.

### MEDIA PLAYER | Developed a website to add and categorize our favourite media in youtube using html, CSS and react.js

- **Account Creation:** Users can sign up and add favorite YouTube videos via link.
- **Login & Watch:** Secure login to view and enjoy saved videos.
- **Organize & Track:** Drag-and-drop videos into custom categories; view watch history in a dedicated section.

### PROJECT FAIR | Developed a website to showcase our projects online using html , CSS, react.js ,MongoDB.

- **User Accounts:** Users can sign up with data stored in a database.
- **Project Sharing:** Post personal projects for public viewing.
- **Explore Projects:** Browse and view projects shared by other users.

### E-KART ONLINE STORE | Developed a platform to purchase products online using html, CSS, redux with react.js .

- **Product Listings:** E-commerce site with various products and prices.
- **User Accounts:** Users can register and place orders.
- **Shopping Cart:** Add multiple items to cart and order together.

### REAL-TIME CHAT APPLICATION | Developed a platform for instant messaging using Node.js, Socket.io, HTML, CSS, and React.js

- **Secure Auth:** User registration and login with authentication.
- **Real-Time Chat:** One-to-one and group messaging via WebSockets.
- **User Status:** Online/offline indicators and typing notifications.
- **Chat History:** Messages stored in a backend database (MongoDB/Firebase).
- **Responsive UI:** Works seamlessly on desktop and mobile devices.

## CERTIFICATES

- Certificate on project work done at Finedge IT Finishing School regarding a web development .
- Certificate for completing course in MEAN/MERN full stack from National Council for Technology and Training(NACTET) .

## SOFT SKILLS

Communication | Punctuality | Adaptability | Decision making | Time management | Problem solving | Critical thinking | Leadership | Organization | Creativity.

## TECHNICAL SKILLS

Html | CSS | Node.js | MongoDB | React.js | Javascript | Express.js | Bootstrap | Tailwind CSS .

## LANGUAGES

• | Malayalam • | English • | Hindi

## INTERESTS

Art | Designing | Music | Wildlife Photography | Fitness
